MODULAR TOGA™

The Next Generation of Personal Protection Equipment Designed by Surgeons for Surgeons.

**AAMI LEVEL 4
PROTECTION**

At ORI, We've Got Your Back™

Finally, an innovative and comfortable full-coverage personal protection solution designed to prevent contamination and inadvertent infections!

The Modular Toga™ from Operating Room Innovations combines our 360-degree coverage SoloFit® gown with our OmniHood™ to deliver the clear choice in personal protection.

Performance and Value:

- Cost-effective PPE solution to maximize your supply chain budget.
- Superior head-to-toe coverage with no zippers or “open back gap” to deal with.
- Efficient contamination protection from:
 - Inadvertent “backside” exposure.
 - Exposure to microorganisms & pathogens that can lead to unwanted infections.

MEETS STANDARDS

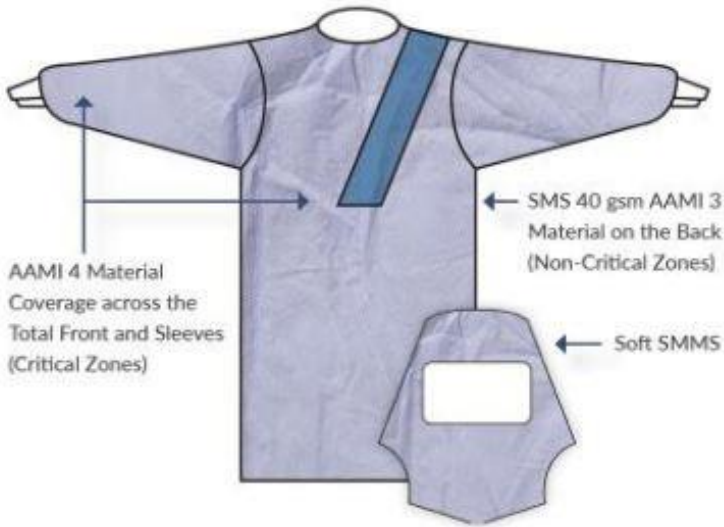

Meets the rigorous standards of AAMI 4 material requirements per ASTM F1670 and ASTM F1671.

BREATHABLE & COMFORTABLE

Our cool, light-weight, soft, and breathable fabric provides the highest-quality microbial barrier protection.

SoloFit® SURGICAL GOWN // AAMI LEVEL 4 (HIGH PROTECTION)

SoloFit® is manufactured with a composite breathable laminate developed to meet the rigorous standards of AAMI 4 material requirements per ASTM F1670 (Synthetic Blood Test) and ASTM F1671 (Bacteriophage Test).

OmniHood™ Face Shield with Full Head Covering
SMMS in-house developed alternative (spunbond + meltblown + meltblown + spunbond nonwoven), enhances the natural comfort and drapability of standard SMS materials.

In combination, these materials offer the best balance of safety and comfort, providing the wearer with confidence, protection, and performance.

Optional Face Shield Guards available.
